## All Americans Can Serve

Every man, woman and child in this country, who wants to serve the country, can serve it and serve it in a very simple and effective way, says Secretary McAdoo.

That service is to lend your money to the government. Every 25 cents loaned to the government is a help at this time and practically every man, woman and child, by making some trifling sacrifice, some denial of a pleasure, or giving up some indulgence, can render the government that support.

## Clean Up This Week

A general clean-up of old papers and rubbish is greatly needed on the vacant lots on our main streets. Numerous remarks of visitors concerning the untidy conditions have been overheard.

The Carmel Sanitary Board will assist in the clean-up and will furnish a man and a team on next Saturday and Monday to collect and dispose of said rubbish. If tenants and property owners will place same in a pile just outside the sidewalk removal will be facilitated.

No charges will be asked

I. B. Waterbury,  
President Carmel Sanitary Board. adv

The Pine Cone has a well equipped job printing plant. Prices are fair.

An unusual number of visitors will be here during Fourth of July week—the 1st to 6th. The national colors should be displayed all over town. Especially, the business places on Ocean avenue should be attractively decorated.

Let us show the visitors in our midst that Carmel is a full-fledged patriotic American community.

Get your flags and bunting ready.

The residents of Carmel Valley, together with the teacher and pupils of Carmelo School, have prepared a fine benefit affair for the Red Cross, to take place next Saturday evening at the schoolhouse. There will be dancing, an entertainment and supper. Everybody invited.

## WEEKLY GREETING

*Falsehood is never so successful as  
when she baits her hook with truth.  
No opinions so fatally mislead as those  
that are not wholly wrong, and no  
watchers so effectively deceive the  
hearers as those that are sometimes  
right. Colton.*

## EDITORIAL BRIEFS

Two calls to duty merit the  
heartiest response of Carmel  
residents. You are asked to  
cooperate in a clean up cam-  
paign, and to decorate your  
premises during Fourth of July  
week. These two matters must  
not be neglected. Personal  
pride as well as civic decency  
commands.

The fight of those of us at  
home, is the fight against  
hunger and famine. Let our  
conservation be as rigorous  
and as effective as the fighting  
of our soldiers. We must not  
"fall down" in our obligation  
to send them the necessar-  
y ammunition for the warmth  
and the maintenance of their  
bodies.

It is your patriotic duty to at-  
tend the amusement place  
of the home town. Ten per  
cent of the entrance money  
goes to Uncle Sam, and is ap-  
plied toward putting kaiser  
bill out of business.

Nineteen nineteen automobile  
seals will be symbolic of  
these war times. The seals  
will consist of a deep red em-  
bossed star on a blue shield.  
As this is to be placed on a white  
ground, it will give the patriot-  
ic red, white and blue.

## OFFICIAL FOOD NEWS

Issued by  
**U. S. Food Administration  
for California**

Reports and rumors which have been widely circulated in California to the effect that there is no further need for wheat conservation, were declared false today by Federal Food Commissioner Ralph P. Merritt, who said "such propaganda evidently originated from pro-German or other sources inimical to the government's interests."

"While California has responded to the country's appeal for wheat saving in a most generous measure, allowing us to assemble nearly 300,000 barrels of flour for export to our armies and the armies and civilian populations of the Allies, further conservation is absolutely necessary to carry us through to the next harvest," Merritt said.

Herbert C. Hoover's attention was called to these erroneous reports circulated here and in other states and in a telegram today to Merritt he said that "the nation must cut its consumption of wheat flour and wheat products to one-third of normal for the next three months to allow us to fulfill the requirements of the Allies."

With the present adequate supplies of fresh vegetables, dairy products, and the fruit season almost here, Merritt said, and the fact that California has been asked to reduce meat consumption very little, "wheat can and should be largely eliminated from the diet of all except those of the classes engaged in hard manual labor."

Production and self-denial are the guns that will beat the Huns.

### WHICH CAMP?

America today is divided into two camps—Americans and Alien Enemy.

Those who are not for America are against her—enemies all.

Those who are idle, selfish or even indifferent are Aliens—alien to America's interests.

Only the workers, "comrades in this great enterprise," bear the honored name—Americans.

### HOMINY

#### Three Suggestions

1. Hominy may be used instead wherever a recipe says macaroni, spaghetti or vermicelli.

2. Use hominy in making muffins and quick breads.

3. Use hominy as a vegetable for dinner and serve no bread.

### SCALLOPED HOMINY AND CHEESE

Arrange alternate layers of boiled coarse hominy and grated cheese. Pour over all a cup of white sauce made with corn starch, and bake for 30 minutes. Cooked fish or meat may be used instead of the cheese.

Yes, they are holding the line, but folks back home must bring up the reserves.

## THIS IS THE WEEK

And now is the time to learn how to cook in comfort all the year round. It is **New Perfection Oil Cook Stove Week.**

An oil cook stove assures that your kitchen will stay cool even in the hottest summer weather, because the heat of the stove is concentrated on the cooking.

There is no smoke or odor; no dust or dirt. And you have all the convenience of gas. Lights at the touch of a match and heats in a jiffy. More convenient than coal or wood. Better and more economical cooking all the year round.

Look for the Big Blue Discs in your dealer's window. Go in and ask about all cook stove comfort and convenience.

#### When the Movie Actors Nearly Froze

Memories of their last winter's trip to Maine to obtain background for "Broadway Bill," a Harold Lockwood production, were recalled to visiting members of the Yorke Metro motion picture company by the Pine Cone's observation of the departure from Carmel of Harry Leon Wilson for the wilds of Maine where he will collaborate with Booth Tarkington in the production of a big literary effort.

Perhaps the one thing that stands out most vividly to the visiting motion picture players when their Maine trip is recalled is the severity of the Northeastern winters. The Yorke Metro company was located at Dead River, a remote locality, for about four weeks in the months of December and January. When the aggregation arrived at its destination the thermometer registered ten degrees below zero and one of them ventured to remark to one of the drivers of the fleet of sleighs which met the company at the station, that the weather was as cold as the proverbial blue blazes. To this observation the native driver prophesied: "Cold? This ain't nothing. You ain't seen no cold, yet."

And he spoke the truth. From the first day on the mercury in the thermometer began to drop until it reached the point of forty-eight below zero. The players worked out in the open all day long in spite of the bitter cold, and at night they repaired to their cabins—cabins they were called, but they were frail structures built to accommodate summer hunting parties and not to house winter visitors—and huddled around the stove to keep warm. During the night the fires would go out and in anticipation of the consequently heightened cold the visitors added numerous pieces from their wardrobe to the allotted bed covering. In the morning the water receptacles were surfaced with ice, which had to be cracked before the usual morning duties could be performed. Such is winter in the wilds of Maine.

No wonder people from all over the country seek Carmel and other California points for the winter!
